

PRODUCT DATA SHEET: PLUS ONE—REPORTING

Plus One—Reporting enhances how Business One manages Crystal Reports. Plus One—Reporting allows anyone in your organization to schedule end-of-day reports or send out sales orders via batched email hourly or as often as your business requires.

PRODUCT OVERVIEW:

The efficient use of corporate data to drive business performance is a key factor for most businesses today. However, the challenge is often not in how to best transform data into decision-making information, but rather how to securely, efficiently, and easily share information with customers & prospects alike, without placing additional burdens on your organization's IT staff. *Plus One—Reporting* is specifically designed to address these challenges.

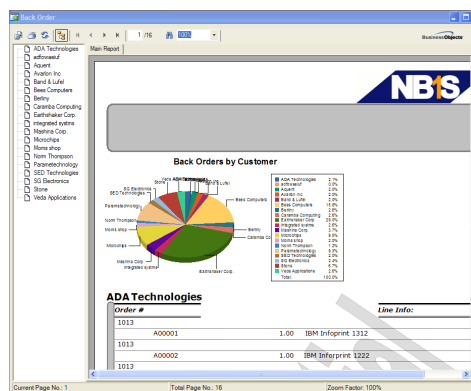

Plus One—Reporting is a complete report management and deployment solution that helps businesses deliver reports via the web, email, and/or fax directly within Business One. It addresses all steps in the reporting process, from data access and report design, to report management and delivery, to report integration with portals and multiple applications.

Plus One—Reporting allows you to:

- ◆ Drive your business with the best SQL Reporting technology
- ◆ Send batch emails with attached reports to any group of clients/customers
- ◆ Print out multiple reports from the sales or production order within SAP Business One
- ◆ Efficiently & securely manage critical business reports
- ◆ Deliver the right information to the right people at the right time.

Access the Data You Need When You Need It

Plus One—Reporting gives you the flexible and unconstrained control you need over all your Business One data. *Plus One—Reporting* uses Crystal Reports which utilizes more than 35 data drivers for direct access to non-Business One application data stored in relational, XML, OLAP, ODBC, OLD DB, JDBC and in-memory database formats. In addition, users can write their own SQL commands for more flexible control over how data is queried.

KEY PRODUCT FUNCTIONALITY

- ⇒ **Batch/Multiple Report Printing**—Gain the ability to print a sales order acknowledgement, shipping pack list, shipping labels, and customer statements from a given sales order, or print a pick ticket & job traveler for the production order
- ⇒ **Email & Fax Automation**—Send out customer statements to all selected customers in a single step via email or fax. No need to individually send them to customers.
- ⇒ **Batch Emails**—allows you to create batch queries in order to send out batch emails to any group or sub-group of business partners
- ⇒ **Enhanced Design**—use a variety of embedded report design wizards to help you make clear, easy to read, professional reports
