

## PRODUCT DATA SHEET: PLUS ONE—UTILITIES

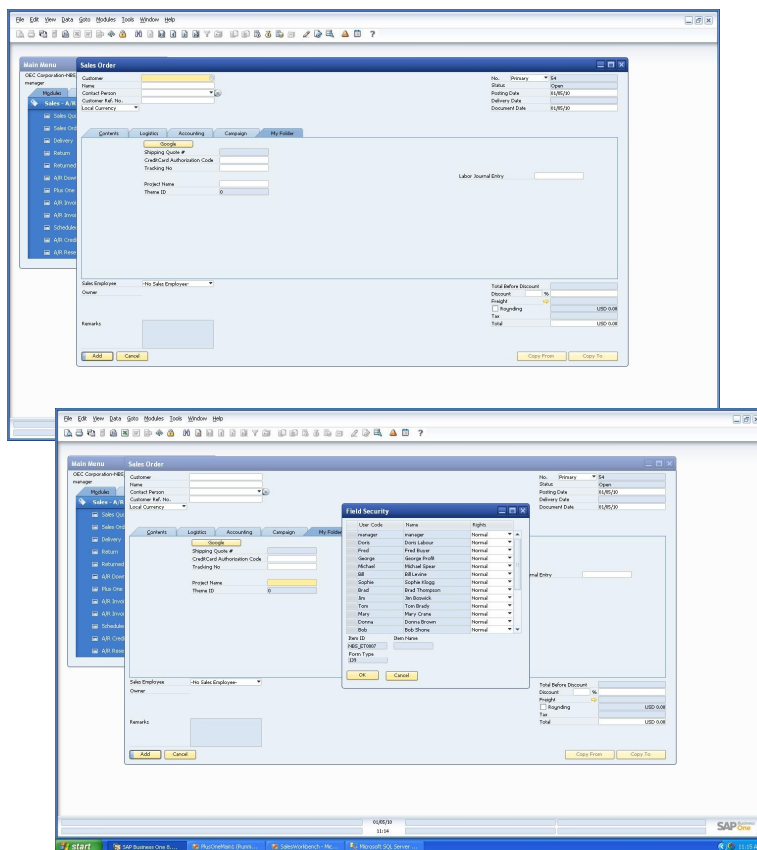

*Plus One—Utilities enhances the embedded functionality of SAP Business One. Plus One—Utilities allows users to more fully customize their Business One software. Plus One—Utilities allows users to more easily access queries, set & open folders, and launch external programs or websites. Users can also easily add & remove user-defined fields to any document, all with a simple click.*

### PRODUCT OVERVIEW:

With more than 1 Billion software applications written to facilitate business, the question arises, which ones actually work? SAP Business One, the fastest growing business software application, puts you in the driver's seat. This fact alone, combined with *Plus One—Utilities*, you have the power you need to make Business One work even better for you.

Here's a snapshot of what *Plus One—Utilities* will do for you:

- ⇒ **Extend functionality**—by adding folders to any document inside of SAP Business One
- ⇒ **Access queries more easily**—by adding user-defined buttons to any document or labels to the main menu
- ⇒ **Launch external programs**— or websites all from within SAP Business One
- ⇒ **Enhanced document management**—allowing you to add or removed any user-defined fields to any document with field level security.
